Tomo Shibata's Organized Torture Act Bill Proposal

Dr. Tomo Shibata, a resident of California, is asking for donations to help her lobby legislative sponsorship for a bill proposal to the California State Legislature. Dr. Shibata drafted a legislative proposal criminalizing organized covert torture with electronic weapons and activities facilitating such torture, according to the California Penal Code. Early in 2018, the California Office of Legislative Council converted Dr. Shibata's proposal into "bill text language", and the proposal was assigned Reference Number 18 07462. A copy of the official bill proposal can be downloaded by visiting freedomfortargetedindividuals.org/current-action. A manuscript explaining the bill proposal can be downloaded by clicking on the lower PDF icon. Unfortunately, the bill proposal needs sponsorship by one or more CA Assembly Persons or State Senators, as well as several non-profit organizations and other concerned groups of CA state residents. To get that sponsorship will require many weeks of lobbying on the part of Dr. Shibata and other volunteers. California State residents wishing to volunteer their time to this effort should email Tomo at revival@hush.com. Positive strides in CA to counteract the crimes of organized stalking and organized covert torture through legislation will be a model for other states to follow suit. Donations of any size will contribute to this ongoing effort. The entire targeted individual community thanks you for helping.
